  - ·Places subject to chemicals, gas generation or excessive vibration.
  - ·Places being close to heating appliances, appliances generating heat and magnetic sources.

Compulsion

- How to clean

  Wipe this product using a soft cloth dampened with water. If wiping with a hard cloth, the product may be damaged or this may cause deterioration in performance.

※Do not use solvents such as alkaline agents, alcohol, thinner or benzine, polish removers, polishing powders, hot water or chemicals.

※Do not leave the device with the essence or gel on it after use.

INSPECTION

When this product is unused for longer than 6 months and is used again, make sure to inspect before use if there are any abnormalities (the lighting state of the LED lights and the presence of absence of cracks).
If used under faulty conditions, this may cause an accident.

NAME OF PARTS

Main body

Accessories

- AC adapter
- Stand
- Instruction manual with warranty card

24KEp elements

■ The surface is surrounded with 24-karat gold which is more gentle on the skin.

※ This metal is really soft and easily scratched. Please handle it with sufficient care. If there are any small scratches, it is not any problem with quality of the device. It is safe to use.

EXPLANATION OF FUNCTIONS

Special Care

Special Care uses complex electrical stimulation generated by patented spiral pulse technology to provide a comfortable skincare experience and help achieve a more refreshed appearance.

Daily Care

Daily Care is EMS mode combines warming and muscle stimulation simultaneously.It gently warms the skin while targeting the facial muscles, helping to create a firmer, more toned appearance.

DF Care

DF Care uses two different types of radio frequency waves to gently warm not only the skin's surface but also a broader area beneath it, helping promote firmer, more elastic, and healthier-looking skin.

Mo (Moist Care)

Moist Care supports skincare by using electrical stimulation and positive ion electroporation technology to help deliver moisture for hydrated, healthy-looking skin.

Settings

To check and adjust language and volume settings, view device information, and access help.

- Please use the device at a level that feels comfortable. Using a level that is too high or unsuitable for your skin may cause stress to the skin and result in over-treatment.
- or each treatment session, use the device for about 5–10 minutes for the entire face. Please adjust the usage time according to your skin condition.

※Treatments exceeding 15 minutes may cause stress to the skin and result in over-treatment.

- LED Light Therapy

- Red ···· Helps promote radiant and firm skin.
- Green···· Helps promote a clear and translucent complexion.
- Blue ···· Helps maintain healthy-looking skin.

※Do not look directly at the light or stare at it while it is on.

※When treating the area around the eyes, please use the device with your eyes closed.

Before Treatment

1 Remove necklaces, rings, and all other jewelry.
2 For facial treatments, use after normal cleansing or washing to remove makeup, sebum, and other impurities.
For body treatments, use in a clean state, such as after bathing.

While performing a treatment

■ For full-face treatment, do not apply all serum or gel at once. Divide the face into four areas as shown in the illustration and apply the product to each area while performing the treatment.

Daily Treatment

■ « Daily Care » 10 minutes
▪ Apply gel to the treatment area and perform the treatment.
※ For detailed treatment steps, refer to page 16.
■ « Moist Care» 5 minutes
▪ Apply serum to the treatment area and perform the treatment.
※ For detailed treatment steps, refer to page 17.

Special Weekly Treatment (1–2 times per week)

■ « Special Care » 10 minutes
■ « DF Care » 10 minutes
■ « Moist Care » 10 minutes
※ Perform one of these treatments once a week.
▪ Special Care / Moist Care: Apply serum to the treatment area and perform the treatment.
▪ DF Care: Apply gel to the treatment area and perform the treatment.
※ The above are examples; choose the mode suitable for your skin.
※ For detailed treatment steps, refer to page 17.
※ Treatment times are guidelines. Do not use for prolonged periods to avoid stressing the skin.
※ Moist Care mode can be used for daily care (no more than 5 minutes per day) or for weekly intensive care (1–2 times per week, no more than 10 minutes per session).

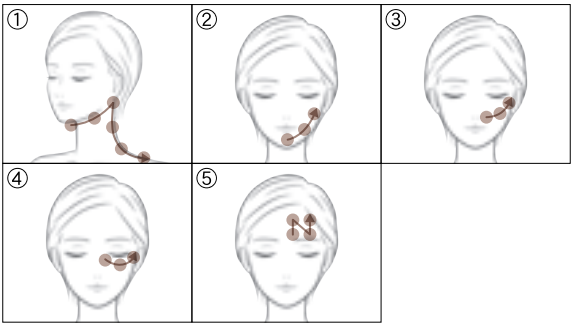

After Treatment

1 Gently absorb any remaining serum or gel on the skin; wipe off if sticky.
2 After treatment, wipe the device surface with a soft damp cloth or tissue, then use a dry tissue to remove any remaining moisture.

Daily Care

■ Apply gel to the treatment area and perform the treatment.

- Place this head to the skin in order for approx. 6 seconds as shown in the illustration.
- 1 ~ 5Perform each procedure two or three times.

※ The treatment procedure in the illustration is an indication.

※ During the treatment, apply more gel if the treatment area becomes dry. When the treatment area becomes dry,it may cause irritation on skin and the reduction of its effect.

※ Please adhere closely all elements on skin while treatments.

※ During use, wipe the surface of the product's head using a soft cloth in case the surface of the product's head becomes rough by the adhesion of dirt etc.

※ Do not use the product if you are physically unwell.

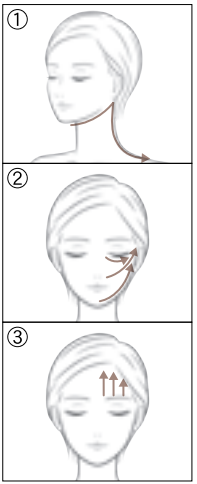

※ Excessive treatment burdens your skin. Do not use multiple times a day on the same area.

⚠WARNING
Do not use on mucous membranes, upper eyelids, eyes, around the eyes, around the ears, or around the Adam's apple.

Special Care / DF Care / Moist Care

■ Apply serum or gel to the treatment area and perform the treatment.

- Move the head slowly at all times; do not keep it fixed on the same spot for more than 3 seconds.
- Perform steps ①–③ 2–3 times each.

Move along the face line from below the jaw to the rear side of the ear.

Then, move from the parotid gland to the shoulder.

Move along the face line from the end of the jaw to the temple.

Next, move along the cheek from the nostril to the temple.

At the end, move along below the eye from the inner corner of the eye to the temple.

Move from the bottom to the top while lifting the eyebrows upward to the hairline.

※ The treatment procedure in the illustration is an indication.

※ During the treatment, apply more gel or the beauty essence if the treatment area becomes dry. When the treatment area becomes dry,it may cause irritation on skin and the reduction of its effect.

※ Please adhere closely all elements on skin while treatments.

※ During use, in the case that the surface of the product's head becomes rough by the adhesion of dirt etc., wipe the surface of the head using a soft cloth.

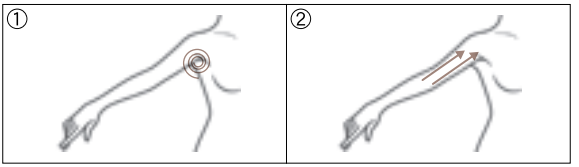

※ Do not use the product if you are physically unwell.

⚠WARNING

Do not use on mucous membranes, upper eyelids, eyes, around the eyes, around the ears, or around the Adam's apple.
